TROPICAL CYCLONE BULLETIN NO. 34
Tropical Depression “DANTE” (CHOI-WAN)

Issued at 5:00 AM, 5 June 2021

Valid for broadcast until the next bulletin at 11:00 AM today

HAZARDS AFFECTING LAND AREAS
With the lifting of the wind signal in Batanes, Tropical Depression “DANTE” is no longer directly affecting the country.
HAZARDS AFFECTING COASTAL WATERS
Under the influence of Tropical Depression “DANTE”, moderate to rough seas (1.2 to 3.5 m) will be experienced over the northern seaboard of Northern Luzon. Mariners of small seacrafts are advised to take precautionary measures when venturing out to sea. Inexperienced mariners should avoid navigating in these conditions.
TRACK AND INTENSITY OUTLOOK
<ul style="list-style-type: none"> • “DANTE” will continue moving northeastwards and may pass over or near the vicinity of Yaeyama Islands of the Ryukyu archipelago. On the forecast track, “DANTE” is expected to exit the Philippine Area of Responsibility as a tropical depression this morning or early afternoon. • This tropical depression is forecast to transition into an extratropical cyclone within the next 24 hours as it interacts with the baroclinic zone of Mei-yu Front over the East China Sea.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

Unless an intermediate bulletin is released, the next tropical cyclone bulletin will be issued at 11:00 AM today.
